

lfdecentralizedtrust.org

The open source foundation for decentralized technology ecosystems

Supported by a diverse, global base of members and communities,
LF Decentralized Trust champions open source best practices across a growing
ecosystem of blockchain, ledger, identity, cryptographic, and related technologies.

A part of the Linux Foundation

By embracing the open source principles established by the Linux Foundation, LF Decentralized Trust serves as the neutral home for the open development of technologies that empower organizations to innovate with secure and resilient code.

The future of decentralized technologies

open source

open development

open governance

Open source and open development are at the core of what we do. By working collaboratively under open governance principles, we ensure that the technology is transparent, secure, and continuously improved by a diverse group of contributors.

Growth & Momentum

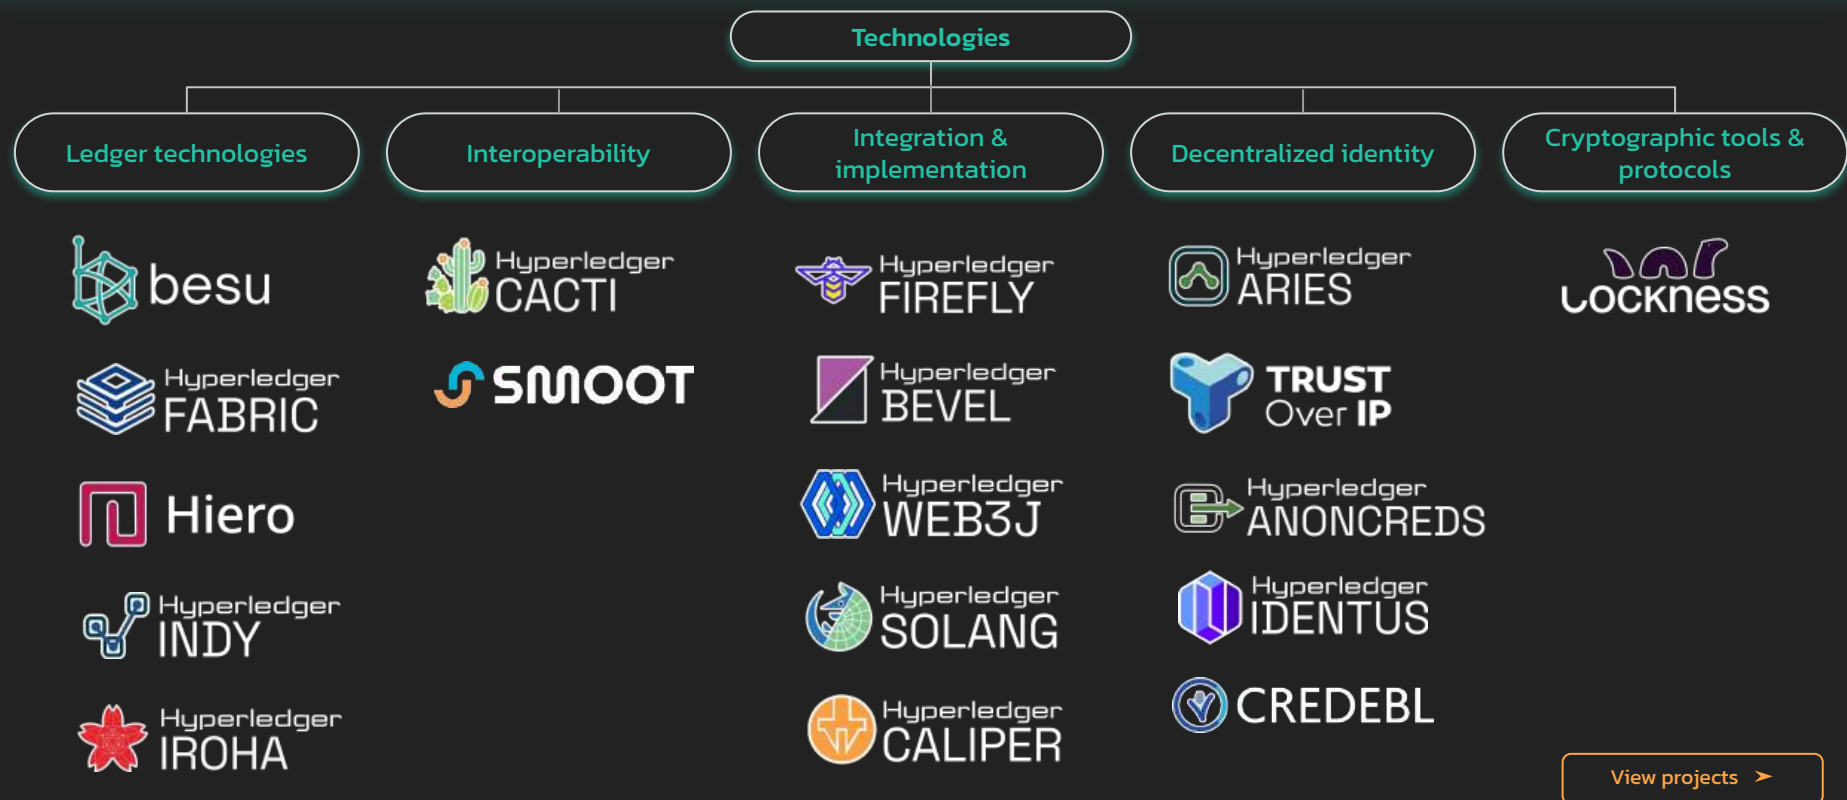

Diverse ecosystem of technologies & use cases

Join members who drive innovation and efficiency, influence standards, and integrate solutions across a broad industry ecosystem with enterprise-grade technologies.

A growing landscape of decentralized technologies

The Siemens logo, consisting of the word "SIEMENS" in a blue, sans-serif font, is centered within a white circular background.

"We see a growing demand for decentralized trust in the open industry ecosystem of sellers and developers with integrated hardware and software. LF Decentralized Trust, with its commitment to open development and governance, is uniquely positioned to meet this demand by fostering collaboration and innovation."

– **Andreas Kind, VP Cybersecurity & Trust**

The Digital Chamber logo, featuring the words "DIGITAL CHAMBER" in a blue, sans-serif font, with "DIGITAL" on the top line and "CHAMBER" on the bottom line, is centered within a white circular background.

"We are encouraged by the launch of the Linux Foundation Decentralized Trust. This initiative is a major step forward in our commitment to decentralized technologies that drive transparency, security, and efficiency. We look forward to partnering with LF Decentralized Trust to modernize infrastructure across vital sectors and foster a digital-first global economy."

– **Perianne Boring, Founder and CEO**

The Citi logo, consisting of the word "CITI" in a blue, sans-serif font, is centered within a white circular background.

"The expanded scope of the LF Decentralized Trust is a welcome development to further support the evolution of decentralized technologies and assess a broader set of tools with the potential to reshape financial infrastructures. We look forward to building on our collaboration with the Linux Foundation and exploring new opportunities that complement Citi's efforts to innovate and scale our digital assets capabilities for our firm and our clients."

– **Ryan Rugg, Head of Digital Assets for Treasury and Trade Solutions**

The Visa logo, consisting of the word "VISA" in a blue, sans-serif font, is centered within a white circular background.

"Visa is supportive of a neutral and open-source approach that the Linux Foundation has been taking from the start. It encourages a unique developer ecosystem that is now being fast adopted by different enterprises for various use cases. This is important as we look to the future of developments in blockchain and tokenization, where an open-source, developer-led environment will help to continuously improve and evolve the software that underlies some of the core infrastructure that many financial institutions are utilizing."

– **Catherine Gu, Head of CBDC and Tokenized Assets**

TOTAL COMMITS

Associate members

Organizations join LF Decentralized Trust to be leaders

Your membership:

Provides a seat at the table

Shaping the the future of decentralized technologies and influencing how they transform industries, make markets, and impact communities worldwide.

Opens doors through networking

Connecting your organization with a collaborative global ecosystem of visionary leaders, innovators, and world-class developers.

Exemplifies prudent stewardship

In the long-term investment of developing strong foundational infrastructure and the success of the communities and technologies that maintain it.

Puts you on the front lines

Leading the development and deployment of new technologies driving the next wave of innovation and progress toward a digital-first economy.

Creates thought leadership

Opportunities for establishing your organization as a market and thought leader, showcasing your expertise in bleeding-edge technologies.

Enhances credibility & influence

By association with the Linux Foundation's leadership in open source boosting your organizations credibility with current and new customers.

Governing board

Influence the Foundation's strategic directions and priorities, vote on key decisions including budget allocations, and collaborate on business and marketing matters.

Shyam Nagarajan
Chief Operating Officer -
Hedera

Johnna Powell
Managing Director,
Technology Research and
Innovations - DTCC

Kei Fukuta
Director of Blockchain Planning
Department - Hitachi

Tracy Kuhrt
TAC Chair,
Associate Director, Blockchain and
Multiparty Systems Architecture -
Accenture

Sophia Lopez
General Member
Representative, Founder
and President
- Kaleido

Rashi Goyal
Director, Blockchain &
Digital Assets -
Mastercard

The governing board consists of one voting representative from each Premier member, two elected general member reps, and the TAC Chair.

Exemplify technology and investment stewardship

Decentralized technologies are revolutionizing market landscapes and disrupting old business models. Our members lead by investing in these technologies, creating resilient and secure distributed systems essential for long-term business success. Being a leader in this transformation not only mitigates risks but positions your organization at the competitive edge of a digital-first economy.

- ❑ Invest long-term in foundational technology infrastructure
- ❑ Collaborate and network with leading open source community
- ❑ Support global project communities essential for project success
- ❑ Transform industries and impact communities worldwide

Outreach committee

Marketing & PR

Guide the strategic vision and direction for the foundation's community marketing and developer relations efforts alongside the marketing and communications team.

Helen Garneau

Chair
Head of Marketing, Indicio

Matt Bass

Vice Chair
Ecosystem Segment
Director, Accenture

2025 Chairs

- Amplify marketing efforts and visibility
- Expand community knowledge, data and insights
- Strengthen community connections and developer relations
- Boost business development pipeline

A collaborative do-ocracy

Your connection to a global ecosystem

The ecosystem team at LF Decentralized Trust has a collective depth of knowledge, experience, and connections in open source development within the enterprise decentralized technologies industry. It is our mission to assist members who are proactive in the community in achieving their goals.

Linux Foundation membership benefits

LF Decentralized Trust members must also become members of the [Linux Foundation](#) at any tier

Legal

- Exclusive legal conferences including the annual [LF Legal Summit](#), [LF Open Compliance Summit](#), legal tracks at the Open Source Leadership Summit, and access the bimonthly legal counsel calls.
- Access to open source compliance experts for ad hoc discussions ranging from new projects to internal program office structures and processes.

Strategic guidance

- Best Practices: participate in the [TODO Group](#) and [Open Source Security Foundation](#)
- Introductions to other Linux Foundation members and hosted projects of interest to expand business opportunities

Insights

- Leverage [LFX Insights](#) to validate projects for investment, track activity and growth of projects you're involved in.
- Gain visibility on your project's code pipeline and performance metrics. Ensure the health & viability of the open source projects you care about.
- Showcase your leadership and expertise in the open source community

Events

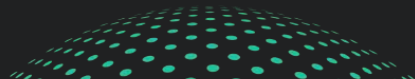

- Discounts for [Linux Foundation Events](#)
- Access to exclusive, member-only events like the [LF Member Summit](#)

Training

- Discounts: [LF Training & Certification](#)
- Platinum ONLY: Enterprise wide license to [Open Source Management and Best practices curriculum](#)

Marketing & communications

- LF Member webinars
- Opportunities to contribute to articles and press releases
- Amplification through Linux Foundation channels

Linux Foundation & LF Decentralized Trust annual fees

	LF Decentralized Trust only. Need to already be a Linux Foundation Member (see member list)	Including the prerequisite Linux Foundation Membership*
